Beijing

Xiaonan Shi is a partner at Merits & Tree. Prior to joining M&T, Ms. Shi worked at East & Concord Partners Law Firm and Nishimura & Asahi Law Firm for many years. During this period, she mainly completed intellectual property cases for Japanese clients and clients of China's Internet, film, and television entertainment companies, including copyright authorization model construction, copyright-related litigations, and unfair competition-related litigations. After that, she worked in a large Internet company for many years. She has a deep understanding of the relevant legal fields of Internet companies.

Ms. Shi provides full-chain legal services from authorization negotiation, and online operation to litigation of rights complaints over music, sports events, film and animation, audio programs, major events, etc. She has extensive experience in copyrights, unfair competition, and trademarks, as well as professional knowledge and rich experience in data compliance, MCN business, internet compliance business, etc. She is also good at finding legal solutions from the business point of view and the legal point of view of the company.
